

■ Tiersil Once

Indication	Fungal infections of the skin caused by dermatophytes such as <i>Trichophyton</i> (e.g. <i>T. rubrum</i> , <i>T. mentagrophytes</i> , <i>T. verrucosum</i> , <i>T. violaceum</i>), <i>Microsporum canis</i> and <i>Epidermophyton floccosum</i> : Athlete's foot (tinea pedis) (adolescent not less than 15 years of age and adult only)
Active Ingredient	Terbinafine Hydrochloride 11.25 mg/g
Description	Clear, colorless or slightly white topical solution
Dosage & Administration	<ul style="list-style-type: none"> ▪ Patients should wash the affected area and dry completely before applying the product. ▪ The product should be applied to the affected area and around thoroughly. For complete fungal treatment, the product should be applied in the same way to the other foot, even if no lesions are visible. Starting between the toes, patients should apply a thin layer evenly between and all around the toes, as well as cover the sole and sides of the foot for up to 1.5 cm. The product should be left to dry to a film for 1-2 minute(s). Do not massage into skin. Patients should then wash their hands. ▪ For the best results, the treated area should not be washed for 24 hours after application. If there are no signs of improvement after one week, patients should see a doctor.
Package	4.5 g/tube
